

Residential Garage, Pool and Patio Concrete Flooring Solutions

GreenStar Coatings, the Leader in Residential Concrete Flooring Solutions

We specialize in residential garage floor, patio & pool deck restoration and resurfacing with a variety of technologically advanced coating systems for all types of concrete flooring. Through extensive research, development and experience, we utilize only the best products that ensure long-term durability and performance

Applications:

We offer a wide variety of residential concrete flooring options to fit any budget. We offer coating systems that are UV resistant so they don't yellow, crack, peel or fade. Anything from a basic epoxy top coat to a comprehensive diamond grinding, polyaspartic floor system with monolithic cove base, we have a solution that is perfect for you and your personal needs. Estimates are free so give us a call!
